Hi Kathleen and Joel,

Fyi. I'll let you know when I hear something from HQ. Please let me know if you have any questions.

Thank you,

Matt

Looks like Kathleen will be participating on the call. Are you as well?

Also, I talked to Laki T. from South Coast. They will not be waiting for our response to Exide on applicability. They will move ahead with proposing the title V renewal and include the NESHAP. They will remove it if we determine that they are not subject, but will keep it in place until or if they hear otherwise from us.

I expect the draft title V permit later this month.

Let me know if you have any questions.

Gerardo

Subject: Meeting Request for Friday, January 6, 2017 at 1:00 p.m. / RE: Exide Closure Plan

Importance: High

Hi folks,

In order to facilitate this meeting on short notice I would like to request this to be a conference call in lieu of a meeting in Sacramento. Therefore, would like to suggest a conference call for this Friday, January 6, 2017, at 1:00 p.m. (PST). As I indicated in my December 30th email below, the purpose of this meeting/conference call is to ensure there is a clear understanding of the use of the Gantry System and any other aspects of the Closure Plan. Please confirm your attendance in this meeting. I will send out a meeting invitation, but below please find the conference call in Number and pass code. Thanks.

Conference Call **Friday, January 6, 2017 from 1:00 p.m. to 2:00 p.m. (PST)**

Call In No.: **(866) 820-4730**

Pass Code: **4884115**

Subject: Meeting Request RE: Exide Closure Plan

Importance: High

Hi folks,

Attached please find copies of Exide's letter to DTSC, dated December 9, 2016 and letters from DTSC and SCAQMD to Exide, dated December 27 and 29, 2016, respectively, regarding the use and implementation of the "Gantry" System/Plan for the removal of the lead kettles, as part of

the Closure Plan for Exide's Vernon Facility.

In reference to these letters, DTSC would like to request a meeting as early as possible at DTSC office in Sacramento between Exide, US EPA, SCAQMD and DTSC to ensure there is a clear understanding of the Gantry System implementation and to resolve any other issues pertaining to the Closure Plan. I would appreciate if you could let me know of each agency's and Exide's availability in early January 2017.

Thanks and wish you all a Happy New Year.
